Editorial

Cosimo Lacirignola
CIHEAM Secretary General

Renforcer les capacités phytosanitaires au Proche Orient pour une meilleure sécurité alimentaire

Sarah Brunel
International Plant Protection Convention, IPPC, FAO
Mekki Chouibani
Near East Plant Protection Organization, NEPPO

Zoom on...Euphresco: European Phytosanitary Research Coordination network

Giovani Baldissera
Euphresco network at the European and Mediterranean Plant Protection Organization

Aperçu des problématiques de gestion des espèces invasives en milieux aquatiques dans les régions méditerranéennes françaises

Alain Dutartre
Expert indépendant
Yohann Soubeyran, Emmanuelle Sarat
Union Internationale pour la Conservation de la Nature, UICN

Interview on "Xylella fastidiosa"

General Giuseppe Silletti
Commissioner for the emergency "Xylella fastidiosa", Italy

The presence of Xylella fastidiosa in Puglia (Southern Italy) poses a serious threat to the whole Euro-Mediterranean region

Michele Digiaro, Franco Valentini
CIHEAM-Bari

Mediterranean farmers face Xylella fastidiosa

Ignacio Fernández de Mesa
Asociación Agraria Jóvenes Agricultores, Córdoba, Spain

Contribution of CIHEAM-Bari for the early surveillance of Xylella fastidiosa and its vectors on olive trees in Italy

Cosimo Lacirignola, Anna Maria D'Onghia, Khaled Djeloulah
CIHEAM-Bari

Assessing the risk posed to plant health by Xylella fastidiosa in the EU

Giuseppe Stancanelli, Gabor Hollo, Olaf Mosbach-Schulz
European Food Safety Authority, EFSA
Rodrigo Almeida
University of California, Berkeley, United States
Domenico Bosco
University of Turin, Italy
David Caffier
Haut Conseil des Biotechnologies, Paris, France
Ewelina Czwieneczek
Bialystock University of Technology, Poland
Jean Claude Gregoire
Université Libre de Bruxelles, Belgium
Stephen Parnell
University of Salford, Manchester, United Kingdom
Claude Bragard
Université Catholique de Louvain, Belgium

Solanum Elaeagnifolium: A New Invasive Weed in Lebanon

Mustapha Haidar, Alia Sabra
American University of Beirut, Lebanon

Alien challenges in Greece: an overview of the terrestrial species

Margarita Arianoutsou – Farangitaki
University of Athens, Greece

Interview « Les espèces invasives en Egypte et le futur Canal de Suez 2 »

Sahar Fahmy Mehanna
National Institute of Oceanography and Fisheries, Egypt

Les espèces non indigènes invasives et leurs impacts sur l'environnement et les activités économiques en mer Méditerranée

Jamila Ben Souissi
Institut National Agronomique de Tunisie

Current Status and Future Prospects of Invasive Plants in Turkey

Huseyin Onen, Shahid Farooq
Gaziosmanpasa University, Turkey

Phytosanitary challenges for the Mediterranean viticultural industry: emerging grapevine viruses

Giovanni Paolo Martelli
University of Bari, Italy
Pasquale Saldarelli
Institute for Sustainable Plant Protection, Italy

Control of tomato leafminer as a new invasive species: costs and lessons

Rachid Bouharrou
Institut National de la Recherche Agronomique, Maroc

Citrus HLB is an emerging disease transmitted by psyllid vectors. Can it be prevented? If not, can it be managed?

Nuria Duran-Vila
Valencian Institute for Agricultural Research, Spain
Joseph Bové
Université de Bordeaux, INRA, France

Drosophila suzukii in Tuscany, from cherry crops to vineyards and beyond

Elisabetta Gargani, Sauro Simoni
Council for Agricultural Research and Economics, Research Centre for Agrobiology and Pedology, Italy
Bruno Bagnoli
Tuscia University, Italy

Interview

Changement climatique et espèces invasives en Afrique de l'Ouest

Cheikh Tidiane Diop
Institut Sénégalais de Recherches Agricoles

Assessment of apple rootstocks resistance to woolly apple aphid (Eriosoma lanigerum Hausm)

Ola Al-Halabi, Bayan Muzher
General Commission for Scientific Agriculture Research, Syria

EFSA's environmental risk assessment of the apple snail for the EU: a novel approach

Sybren Vos
European Food Safety Authority, EFSA
Sara Pasquali
CNR-IMATI, Italy
Gianni Gillioli
University of Brescia, Italy
Nils Carlsson
The County Administrative Board, Environmental Department, Sweden
Pablo Rafael Martín
Universidad Nacional del Sur-CONICET, Argentina
Gritta Schrader
Institute for National and International Plant Health, Braunschweig, Germany

First detections of honey bee pathogens in nest of the Asian hornet (Vespa velutina) collected in France

Marie-Pierre Chauzat, Philippe Blanchard, Frank Schurr, Patrick Drajnudel, Jean-Paul Faucon, Magali Ribière-Chabert
Agence nationale de sécurité sanitaire de l'alimentation, de l'environnement et du travail, France

Les plantes invasives: un ajustement du vivant à notre monde

Jacques Tassin
Centre de Coopération Internationale en Recherche Agronomique pour le Développement, France
