

FARMING AND AGRI-FOOD SYSTEMS DYNAMICS: FACING CRISES AND TRADE-OFFS IN TRANSITION PATHWAYS

June 29 - July 3, 2026
Montpellier (France)

IFSA 2026 | CONFERENCE PRELIMINARY AGENDA

Monday 29/06/2026 – at CIHEAM-IAMM

17:30-19:00 Welcoming Cocktail - *Introducing workshop*

Tuesday 30/06/2026 – at Paul-Valéry University

08:00-09:00 **PARTICIPANTS REGISTRATION**

09:00-10:15 **PLENARY SESSION** – hall 1
Institutional welcome - Thierry Dupeuble, Paolo Prosperi, Hatem Belouchette
Keynote speakers speeches and discussion - Gianluca Brunori «Between desired and emergent transitions: the never-ending Agrarian question debate»

10:15-10:45 *Coffee break* - Atrium

10:45-12:15 **KEYNOTE SPEAKERS SPEECHES AND DISCUSSION** - Katrien Descheemaeke «Training for Transformation: Systems Thinking as a Foundation for Resilience»

12:15-13:30 *Lunch break* - Atrium

13:30-17:00 **PARALLEL SESSIONS**

	THEME 1 ROOM	THEME 2 ROOM	THEME 3 ROOM	THEME 4 ROOM	THEME 4 ROOM	THEME 1 ROOM	THEME 3 ROOM	THEME 4 ROOM
13:30-15:00	Changing roles of different actors I	Harmonising agriculture and landscape management	Learning & Participating I	Socio-economic Valuation and Co-Design Pathways for Pollinator Stewardship in European Farming Systems	Food environments and sustainable production and consumption	Farms in transition I : Systems methodologies	Serious Games	True Cost Accounting for Food: Unpacking Monetization, Justice, and Systemic Trade-Offs for Resilient Food Futures
15:00-15:30	<i>Coffee break</i> - Atrium							
15:30-17:00	Changing roles of different actors II	Solidarity, contestation, and disruption in rural areas	Learning & Participating II	Socio-economic Valuation and Co-Design Pathways for Pollinator Stewardship in European Farming Systems	Food environments and sustainable production and consumption	Farms in transition II : Agroecology practice and transition pathways (1)	Living Labs	Resilience frameworks to support innovations in the water, food, energy, ecosystem nexus

Wednesday 01/07/2026 – FIELD VISITS (pick up and back at rue du Grand Saint Jean, nearby the Gare Saint Roch)

IFSA 2026 | CONFERENCE PRELIMINARY AGENDA

Thursday 02/07/2026 - at CIHEAM-IAMM

PARALLEL SESSIONS

	THEME 1 ROOM	THEME 2 ROOM	THEME 3 ROOM	THEME 4 ROOM	THEME 1 ROOM	THEME 3 ROOM	THEME 4 ROOM	THEME 4 ROOM	THEME 4 ROOM
09:00-10:30	Governance, markets and business models I	Variability and diversity at the farm and landscape-level	Methods & Tools	Territorial innovation and regional transitions of agri-food value chains	Farms in transition III : Agroecology practice and transition pathways (2)	Innovation Support Service	Systemic Transitions in Mediterranean Agri-Food Systems: Operationalising the WEFE Nexus through the DIONYSUS Project	Territorial innovation and regional transitions of agri-food value chains (1)	Territorial innovation and regional transitions of agri-food value chains (2)
10:30-11:00	<i>Coffee break</i>								
11:00-12:30	Climate Governance, markets and business models II	Visualisation of socio-technical systems interactions	AKIS and Multi-Actor-Approach	NATAE special session: fostering agroecology in North Africa	Farms in transition IV: Transdisciplinary approaches (and co-design) for farming systems transition	Negotiation and Agency	Systemic Transitions in Mediterranean Agri-Food Systems: Operationalising the WEFE Nexus through the DIONYSUS Project	Bio-economic modeling and decision-support tools	WEFE Nexus integration into food systems
12:30-13:30	<i>Lunch break & Group photos</i>								
13:30-15:00	Landscapes in transition I	Participatory design and co-innovation in landscape transitions	Transitions	NATAE special session: fostering agroecology in North Africa	Farms in transition V: Transformative change: policy support	Discourses and Conversations	Systemic Transitions in Mediterranean Agri-Food Systems: Operationalising the WEFE Nexus through the DIONYSUS Project	Inclusive governance and resilience of agri-food value chains	Digital and organizational transformations
15:00-15:30	<i>Coffee break</i>								
15:30-17:30	Landscapes in transition II	New frameworks to document, assess and support agrobiodiversity in action	Capacities building & Development		Special Session: Scaling of Agri-Food Niches: Towards a Research and Action Agenda I			Inclusive governance and resilience of agri-food value chains	
17:00-18:15	IFSA Business Meeting - Steering Committee meeting open to all participants willing to take part in the discussions – Big hall (alternatively) Musical apéritif								
18:15-22h	GALA DINNER								

IFSA 2026 | CONFERENCE PRELIMINARY AGENDA

Friday 03/07/2026 - at CIHEAM-IAMM					
PARALLEL SESSIONS					
09:00-10:30	THEME 1 ROOM	THEME 2 ROOM	THEME 3 ROOM	THEME 1 ROOM	THEME 3 ROOM
	Special session: Scaling of Agri-Food Niches: Towards a Research and Action Agenda II	Community governance of resources	Innovation Scaling	Farms in transition VI: Behaviours, pathways, cultures, adoption factors	Special session: Good practices in setting up successful multi-actor project proposals
10:30-11:00	<i>Coffee Break</i>				
11:00-13:30	Closing Plenary - Big Hall				
13:30-14:30	<i>Lunch</i>				
14:30-16:00	Screening of the documentary 'Terraces of the Future: Rediscovery of an Agricultural Heritage in the Mediterranean Landscapes' - <i>An initiatory trip of two young people in search of age-old savoir-faire revived and facing climate change</i>				

IFSA 2026 | CONFERENCE SESSIONS

PARALLEL SESSION DETAILS - TUESDAY JUNE 30, 2026

	THEME 1	THEME 2	THEME 3	THEME 4	THEME 4	THEME 1	THEME 3	THEME 4
Sessions convenors	Teresa Pinto Correia	Davide Rizzo, Intissar Ferchichi	Alex Koutsouris, Patrizia Proietti	Georgios Kleftodimos, Martin Thorsøe, Seyed-Ali Hosseini Yekani	Luca Camanzi, Isabeau Coopmans	Torsten Rødel Berg, Martin Hvarregaard Thorsøe	Sylvain Dernat	Schmitt Emilia
	Changing roles of different actors I	Harmonising agriculture and landscape management	Learning & Participating I	Socio-economic Valuation and Co-Design Pathways for Pollinator Stewardship in European Farming Systems	Food environments and sustainable production and consumption	Farms in transition I : Systems methodologies	Serious Games	True Cost Accounting for Food: Unpacking Monetization, Justice, and Systemic Trade-Offs for Resilient Food Futures
	675452 Working with the living over the long term: exploring adaptive weed management in herbicide withdrawal trajectories Boulay Anaïs	676075 A systems thinking approach to visualising food system transformation and empowering stakeholders to shape a shared future Nyokabi Ndungu	676195 Foresight for the preservation of territorial crop-livestock systems in a French region: A participatory approach Perrisseau Louise	676356 A participatory framework for consumer involvement in Living Labs: Applying the Quadruple Helix Model to biodiversity-friendly consumption Kleisiari Christina	677370 Understanding Consumer Acceptance for Plant-Based Dairy Alternatives in Evolving Mediterranean Food Environments Ahmadi Kaliji	674266 Values of Alternative Food Initiatives as Leverage Points for Transformative Changes in Food Systems Stotten Rike	675007 Games for action in agroecological transitions – GAMAE session Dernat Sylvain	675089 Constructing "True Costs" in Food Systems: Design Choices and Decision-Making Van Heyningen Kelly
13:30-15:00	676135 'Proactive personality' – 'Stakeholder' – 'EU-AKIS Actor': A trajectory study about the changing role of rural and agricultural players Von Muenchhausen Susanne	675955 Mapping the Diversity and Dynamics of EU Rural Food Systems A Multi-Dimensional Approach Chahid Nassim	676333 Exploring knowledge and learning processes through the dynamic articulation of collective and individual iterations in farmers' collective experimentation de Sainte Agathe Maité	675605 Economic assessment of pollination services through bioeconomic modeling: Findings from living labs in Greece, France, Ireland, and Germany Basaran Zehra	676519 Citizen Science for Circular Food Systems: Testing Urine-Based Fertilizers in informal food production Zoll Simona	676401 Towards more systemic management of animal health: a review of the links between LFS and animal health Manoli Claire	675330 ITK'Arbo: a serious game for co-designing pesticide-saving protection strategies in apple orchard technical itineraries Prouteau Alice	676256 Framin true cost accounting for food systems transformation: a systematic review Jeangros Laurence
	677616 - Informative Social Innovations in Organic Fruit Breeding: A Strategic Framework for Systemic Change - Mariani Mariagiulia	676462 - What integration of cattle farming "bundles of services" in local Climate-Air-Energy Plans (Plan Climat Air Energie Territorial)? Insights from the French Pays de la Loire Region Fournier Marie	677352 Bridging Knowledge through Buddhist Temples: Knowledge Co-Production in Adaptive Co-Management of Agricultural Landscapes in Thailand Sae-Heng Patcharin	676006 Knowledge, Attitude, and Practice of Post-Farm Value Chain Actors on Wild Animal Pollinators in Europe Yujie Zhang	675156 Producers' perspectives of de-alcoholised wines in Italy: analysis of an emerging market between regulations, innovation, and regional prospects Passarini Francesca	675488 Towards understanding the dynamics of sustainable farming systems: a structural equivalence and systems thinking approach to analyse lock-ins and leverage points across ten European cases Ottaviani Aalmo Giovanna	675433 Co-designing sustainable crop-livestock farming systems using a serious game: levers at farm and territorial levels Fernandez Lucie	677054 Informing consumers on the true cost of food: Insights from an eye-tracking experiment and think aloud protocol Dassesse Kate

	THEME 1	THEME 2	THEME 3	THEME 4	THEME 4	THEME 3	THEME 3	THEME 4
	677477 Perception of roles in co-designing processes for territorial agro-ecological living labs Marraccini Elisa	677436 Understanding and displaying the spatial involvement of livestock farming systems in landscape configurations of ecological relevance in two local territories in Brittany (France) Thenail Claudine	674347 Levers and limits for collective action under Geographical Indications. Lessons from the ADAoPT project in French cheese sectors - Dernat Sylvain	675496 Mapping pollination service shocks in a CGE framework: A decision-support tool for European agri-food systems Nejatyanpour Elnaz	676001 GHG accounting at farm level - a reflection and driver of a processor and retailer-led food system-wide transition towards Net Zero Phelan Lisette	676402 Carbon typology and efficiency analysis of dairy farms: Exploring synergies and trade-offs towards carbon neutrality in Northwest France Abbar Ilhem	676117 Using a serious game to engage agrifood system actors for unlocking the production of local neglected legume crops – A case study in South-Eastern Senegal. Marrou H��l��ne	675455 Self-consumption, sharing, and social acceptability in agroecology: From household plates to Territorial ties in Yakouren and Laghouat (Algeria) Benzerara Othman
13:30-15:00	676466 Science policy interfaces in the European food systems' transition to sustainability: interface governance and the role of researchers Arnalte-Mur Laura		677442 Enhancing Local Capacity for Systemic Change: Bundled Approaches to Forage Innovation in the Ethiopian Highlands Gebreyes Million	676002 Strategies for valorization of pollinator restoration and biodiversity in the value-chain - analysis and critique Hvarregaard Thorsoe Martin	675980 *Can public procurement act as a lever to increase organic food and farming? Prager Katrin	676024 A theory-aware ex ante assessment of transformational potential of strategies co-created in nine case studies across Europe Teissier Louis	676254 Stakeholder preferences for agrobiodiversity in agricultural landscapes: Using a serious game to identify options and influencing factors Mouratiadou Ionna	
						675162 Exploring the Socioeconomic Dimension of the Agroecological Transition: A Survey-Based Study Using Sustainable Assessment Methods Fain Edwige		
						675074 Understanding on-farm species mixtures' pathways with the action logic framework Grinner Salom��		
15:00-15:30	Coffee break							

15:30-17:00

THEME 1	THEME 2	THEME 3	THEME 4	THEME 4	THEME 2	THEME 3	THEME 4
TBC	Davide Rizzo	Alex Koutsouris, Patrizia Proietti	Kleftodimos, Thorsoe, Hosseini Yekani	Luca Camanzi Isabeau Coopmans		Andrea Knierim and Noelle Aarts	Graveline Nina
Changing roles of different actors II	Solidarity, contestation, and disruption in rural areas	Learning & Participating II	Socio-economic Valuation and Co-Design Pathways for Pollinator Stewardship in European Farming Systems	Food environments and sustainable production and consumption	Farms in transition II : Agroecology practice and transition pathways (1)	Living Labs	Resilience frameworks to support innovations in the water, food, energy, ecosystem nexus
676166 Perception of roles in co-designing processes for territorial agroecological living labs Moroder Alma	670542 Integration of local knowledge and community capacity building for fire management: the case of Andohahela National Park in the dynamics of agroecological transition Veriza Taylor Dira Angelo	677452 Learning our way into climate-smart advice: insights from the first wave of Communities of Practice in the Climate Smart Advisors project Collins Kevin	677342 The benefits and limitations of using a discrete choice experiment to support local governance of the ecosystem service of wild pollination: the case of the Gers region Cherdon Mattis	674345 Tasting Vs Storytelling: what influences consumers' willingness to pay for mountain cheese – a case study in Northern Italy Moresino Elena	677421 What are the agroecological practices of irrigators? A study in Occitanie (France) Leenhardt Delphine	675407 Co-designing digital tools to foster capacity building for on-farm experimentation: first steps from the Occitanum living labs/ On-farm experimentation and digital tools as capacity-building processes for agroecology: first steps from the Occitanum living labs Vu-Hoang-Ha Pham	675992 A knowledge agenda for the resilience of food systems Meuwissen Miranda
675427 Leaving the comfort zone: How living labs require renewing researchers' stances and practices Meunier Clémentine	675835 Identifying Barriers and Enabling Factors for Participation in Wetland Conservation: A Systematic Review Zhoolideh Milad	675938 Co-designing multi-performance result-based strategies for water quality restoration with farmers Bellet Louise	675591 The foundation for pollinator restoration actions Bach Jonna	676317 Consumers' perspectives on collective initiatives in urban areas: the case of a community bakery in North-Eastern Italy Marraccini Elisa	677417 Who are the irrigators committed to agroecology in Occitanie (France)? Auger Louise	675953 Methodological approaches to mapping agroecology living labs: A scoping review Averbuch Bonnie	675893 Bottom-up construction of a nexus resilience framework in the Mediterranean Graveline Nina
675231 Farm advisers as farm-level bureaucrats: transforming roles and policy engagement Blix Germundsson Lisa	677492 Silent Resistance and Limited Disruption: Land and Agricultural Change in Lebanon Sanad Noa	675699 Is it worth 'bothering' actors with making explicit their objectives and questions in transdisciplinary research and innovation projects for agrifood systems transition? Leclere Margot	676033 Unfolding the co-benefits of pollinator restoration measures through integrated bio-economic and land-use modelling Blili Yasmine	675078 When Diet Shapes Waste: Linking Consumption with Food Waste, and Related Environmental Impact in Albania and Kosovo Kokthi Elena	676153 Under what conditions does on-farm observation facilitate the ecologisation of farm practices? Penvern Servane	676038 Valorizing quantitative data in participatory on-farm experiments: a conceptual framework informed by five contrasting living labs Battheu-Noirfalise Caroline	676187 Discussing food storage at a territorial scale: a lever to coordinate policies for resilient food systems in France? Guennoc Dorianne

15:30-17:00

THEME 1	THEME 2	THEME 3	THEME 4	THEME 4	THEME 2	THEME 3	THEME 4
<p>676694 Farm advisers as farm-level bureaucrats: transforming roles and policy engagement Collin Lea</p>	<p>677398 'Organic Villages' and the Reconfiguration of Japanese Rural Landscapes: Locally-Led Transitions toward Sustainable Rural Futures? Zollet Simona</p>	<p>674006 Getting beyond the echo? Multi-directional learning spaces and new entrants to agriculture Williams Fiona</p>	<p>5 - minutes pitches</p>	<p>676469 Evaluating the effectiveness of Communication strategies in Alternative Food Networks (AFNs) for Enhancing Local Food Systems in Scotland Inyang Nsongurua</p>	<p>675537 Relationality of crop diversification in arable farming: examining changes in the relational configuration of arable farming systems in crop diversification processes from a labour perspective Schoop Daphne</p>	<p>676080 Living labs: Learning together with our communities Nyokabi Ndungu</p>	<p>675172 The causal effect of agricultural landscape simplification on Germany's grasslands during a compound drought and heatwave in 2018 Huettel Sike</p>
		<p>675754 Learning through the Landscape: Situated Skills Development for Landscape-Scale Nature Recovery Davis Josh</p>	<p>Round table</p>	<p>677380 Investigating the Role of Innovative Ready-to-Eat Seafood in the Dietary Transition towards Sustainability: Consumer Insights from Italy and Croatia Camanzi Luca</p>	<p>675592 Managing climate change and weather events in French vineyards: analysis of winegrowers' practices Darets Sophie</p>	<p>677648 Reframing Living Labs as learning ecosystems for agri-food transitions: the TENUALAB case/ Advancing Methods and Tools for Learning in Transdisciplinary AgriFood Systems: The TENUA LAB Experience Massari Sonia</p>	<p>676649 Understanding Food Environments: Barriers and Drivers for Sustainable and Healthy Food Consumption in Europe Coopmans Isabeau</p>
						<p>675453 Establishing Living Labs to build capacity in agricultural innovation systems: insights from Australian efforts in climate change responses Kenny Sean</p>	

	THEME 1	THEME 2	THEME 3	THEME 4	THEME 1	THEME 3	THEME 4	THEME 4	THEME 4
Sessions convenors	Julie Ingram	Davide Rizzo	Simona Christiano, Eleni Zarokosta	Fanny Raoux	Martin Hvarregaard Thorsøe, Kasper Krabbe	Pierre Labarthe Andrea Knierim	Kleftodimos, Bouzid, Hosseini Yekani	Sara Romano	Accatino
	Governance, markets and business models I	Variability and diversity at the farm and landscape-level	Methods & Tools	Territorial innovation and regional transitions of agri-food value chains	Farms in transition III : Agroecology practice and transition pathways (2)	Innovation Support Services	Systemic Transitions in Mediterranean Agri-Food Systems: Operationalising the WEFE Nexus through the DIONYSUS Project	Territorial innovation and regional transitions of agri-food value chains (1)	Territorial innovation and regional transitions of agri-food value chains (2)
	675218 Regeneration between markets and movement: The politics of regenerative agriculture narratives Witt Niklas	675326 Exploring Farm Typologies in the Cereal Plains of El-Krib, Northwest Tunisia: Diversity from Small-holders to Large-Scale Producers Jallouli Salma	676349 Applying Q-Methodology for knowledge exchange: Experiences from stakeholder workshops Neuberg Sabine	675884 From Bitter to Better: Can Voluntary Standards Grow a Sustainable Future for Cocoa? Evidence from the Eastern Region of Ghana Romano Sara	675856 Assessing the Sustainability of Mixed Olive and Small Ruminant Systems in Lebanon Using the IDEA Method Hamadeh Shadi	674962 Evaluating and Co-Designing Advisory Services in Irrigated Agriculture Nettle Ruth	675756 Adapting to survive and for an agri-food transition: case of cereals producers (Sétif, Algeria) Lazereg Messaoud	675802 Geographical Indications as Drivers of Territorial Development: Economic Determinants of Success and Value Distribution Meziani Lamia	677469 Qualitative sustainability assessment of three dairy value chains in Southern Mediterranean countries Accatino Francesco
09:00-10:30	677084 Mapping Business Model Diversity to Guide Just Transitions: An Archetypal Analysis of Flemish Dairy Farms Kasaw Molla Tigabu	676154 Change in farming systems and their expression at the territorial scale: The case of crop succession as an indicator of change Ygauin Elise	676333 Ex Dashboards as innovative tools to support advisors and farmers learning and decision making on soil fertility Prost Lorène	675913 Revisiting the Filière Concept: Evaluating its Role in Contemporary Agri-Food Transitions Schnebelin Eléonore	675996 Eco-Agriculture and the Politics of Practice: Grassroots Pathways in Farming System Transitions Lord Gemma	675642 Advisory Services and Innovation Adoption in Campania's Farms: Insights from SRH01 Menna Concetta	675844 Beyond Sectoral Integration: Theoretical Foundations of the WEFE Nexus as a framework for Systemic Governance Kleftodimos Georgios	674976 Taste the Terroir: Unravelling Europe's Food Tapestry through understanding the geographical distribution of GIs Lohrum Nele	677292 Bio-based Fertilisers, Circular Economy and Short Supply Chain in Rural Communities : the Italian case of Friuli Venezia Giulia Angeloni Annalisa
	675350 The local organic supply chain in Parma: a social network analysis approach Mele Rosmeri	677455 How do farmers decide where to allocate the crops in rainfed farming systems? Insights from a case study in north-eastern Tunisia Le Pelvé Judith	677280 Integrating strategic foresight in agriculture innovation portfolio management: a review and framework for action Abegaz Dagmawi	676121 Situational Analysis of North Hesse's Organic Vegetable Production Network Pohlmann Hanna	675545 Fostering crop-livestock integration between farms: A co-design approach for an agroecological transition Pepin Antonin	675665 How do service providers collaborate to support agricultural innovation? Characterization of the forms of collaboration within innovation support facilities in rural areas in Madagascar Audouin Sarah	676325 Decision-support for sustainable farming: Extending DAHBSIM with Network Flow for WEFE Nexus applications Sheet Reem	676368 Conditions for a long-term supply of institutional catering by organic dairy and beef farmers - Empirical evidence from French farmers' perspectives Magne Marie-Angéline	675348 - Identify the values of a regional agro-product to develop Geographical Indication: a case study from Rwanda Buttignol Angelo

	THEME 1	THEME 2	THEME 3	THEME 4	THEME 1	THEME 3	THEME 4	THEME 4	THEME 4
09:00-10:30	<p>675457</p> <p>Does market gardening with a quality label have a future regarding agroecological and climate change challenges? The case of sweet onion production in the Cevennes region (France)</p> <p>Bernard-Michinov Remi</p>	<p>675969</p> <p>Crop system dynamics and their link to maintaining hedgerows in two rapidly changing cattle farming areas</p> <p>Casquin Antoine</p>	<p>677367</p> <p>Learning history approach to explore values in a trans-disciplinary project on Integrated Crop Livestock Systems</p> <p>Van Zandbrink Rianne</p>	<p>676120</p> <p>Investing in Four Agricultural Value Chains: Citrus, Sugar crops, Tomatoes, and Potatoes, and Their Economic Impact in Egypt</p> <p>Raouf Mariam</p>	<p>675648</p> <p>From Barriers to Pathways: Rethinking the Adoption and Scaling of Agroecological Practices “selected cases from Cameroon and Rwanda</p> <p>Ndah Hycenth Tim</p>	<p>676605</p> <p>Building Innovation Support Services platforms: shared ambitions, complex realities</p> <p>Orbell Claire</p>	<p>676081</p> <p>Designing a CGE-Based Decision-Support Tool for WEFE Interactions in Mediterranean Farming Systems</p> <p>Fosah Ghislain</p>	<p>676244</p> <p>Learning from the best: an analysis of attempts to replicate successful farmers’ markets</p> <p>Grivins Mikelis</p>	<p>675701</p> <p>Association of Quinoa Crop and Carob Trees in Dryland Agroforestry Systems: A Nexus-Driven Blueprint for Resilient Food Systems</p> <p>Jouini Manal</p>
	<p>671644</p> <p>Policy Innovation for Soil Health: Pathways Towards Sustainable Land Use Governance in Europe; Transformative changes</p> <p>Bartolini Fabio</p>		<p>672266</p> <p>Urbanaa: a new tool allowing a flexible sustainability assessment of urban agriculture</p> <p>Clerino Paola</p>	<p>675702</p> <p>In itinere evaluation framework to support intercrop-based value-chains development within 13 living labs across Europe: results and learnings</p> <p>Raoux Fanny</p>	<p>675174</p> <p>Implementing facilitation practices for vineyard adaptation to climate change: lessons from the VINID'OCC LAB in Occitanie France</p> <p>Maranon Inès</p>	<p>675505</p> <p>Agricultural Advisors’ Perspectives on Innovation: A Mixed-Methods Study Across Europe and Flanders.</p> <p>Lybaert Charlotte</p>	<p>675954</p> <p>Farm household modeling as a way to measure the WEFE Nexus resilience</p> <p>Cuilleret Mathieu</p>	<p>676397</p> <p>Standards at work: looking for labour in a diversity of agri-food quality schemes</p> <p>Fischer De Lanlay Jules</p>	<p>674719</p> <p>Circular Bioeconomy Pathways for Lebanon: Optimizing Biochar from Herbal Crop Residues for Agriculture and Water Remediation</p> <p>Rammal Marwa</p>
			<p>676367</p> <p>Co-designing tools to support settlement with local breeds in agroecological farming systems: feedbacks of a trans-disciplinary research conducted in French</p> <p>Brittany - Couix Nathalie</p>			<p>676088</p> <p>Transformations in methods and professional identities among advisors involved in collective experimentation with farmer groups in Organic Conservation Agriculture</p> <p>Toffolini Quentin</p>			
			<p>676074</p> <p>Understanding facilitation dynamics in online farmer communities and its potential implications for agroecological practices changes</p> <p>Ardoint Gutman Louise</p>						
			<p>675803</p> <p>Open on-Station system Experiments (OSEs) as innovation intermediaries to foster agroecological transitions: case studies from France</p> <p>Cardona Aurélie</p>						
10:30-11:00	Coffee break								

Sessions convenors	Julie Ingram	Davide Rizzo	Partizia Proietti, Ruth Nettle	Requier-Desjardins Mélanie, Kleftodimos Georgios, Iciar Pavez, Caulfield Mark	Elisa Marraccini	Noelle Aarts and Cees Leeuwis	Kleftodimos, Bouzid, Hosseini Yekani	Peter Zander	Nahid Hasan
	THEME 1	THEME 2	THEME 3	THEME 4	THEME 1	THEME 3	THEME 4	THEME 4	THEME 4
	Climate Governance , markets and business models II	Visualisation of socio-technical sys- tems interactions	AKIS and Multi-Actor- Approach	NATAE special session: fostering agroecology in North Africa	Farms in transition IV: Transdisciplinary ap- proaches (and co-de- sign) for farming systems transition	Negotiation and Agency	Systemic Transitions in Mediterranean Agri- Food Systems: Opera- tionalising the WEFE Nexus through the DIONYSUS Project	Bio-economic modeling and decision-support tools	WEFE Nexus integration into food systems
	675355 The Onto-political Enactment of the “Modern Manager of Land”: Danish Farm- ers and the Green Tripartite Agreement Reeh Dikte	675140 Diversification of or- chards to support the agroecological transi- tion: sociotechnical barriers and levers at farm and downstream levels. Case study of the mid-Rhône valley, France Rosiès Blandine	676042 Identifying ‘silent actors’ in Euro- pean Agricultural Knowledge and Inno- vation Systems (AKIS) Zarokosta Eleni	675442 Mapping Consumer Transitions Toward Agroecological Food Systems in North Africa: Insights from a Five-Country Be- havioral Assessment Kleisiari Christina	677391 Co-constructing the Agroecological Tran- sition: Insights from a Farmer-Researcher Innovation Hub on Conservation Organic Agriculture Swartebroecq Adrien	676036 Natural teamwork? Farmers experiences in everyday interac- tions in living labs for biodiversity restoration in the Netherlands Aarts Noelle	675732 Linking national strategies and local agroecological prac- tices within the WEFE Nexus approach: towards co-creation of knowledge in Tu- nisian growing citrus systems. Rahma Jaouadi	675069 Evaluating the impact of agricultural subsidy policies on farm productivity and income: A mathemati- cal modeling approach Tollia Saimir	676440 Exploring Economic, Environmental, and Social Trade-offs in Agroecology Policy Design: A North African Living Labs Perspective Tiba Tilahun Kenea
11:00-12:30	675571 Building situated liti- eracies for the transi- tion to net zero: impli- cations for the AKIS Ffion Evans	675447 Normandy’s Path to a Sustainable Bioe- conomy: Lock-ins in Agricultural Biomass Production Lucas Agathe	677266 Assessing Capacity Needs in European AKIS: A Multi-Actor Perspective Cristiano Simona	675242 Assessing Tunisian consumer behavior toward agroecological products: Predis- position to buy and Willingness to pay Koussani Wafa	676265 Co-design of cropping systems in livestock farms in Morocco through a participato- ry approach in Kenitra and Khemisset prov- inces Mghirbi Oussama	676015 Feeding Change: Sociological consump- tion perspectives on inclusive food system governance Wertheim-Heck Sigrid	675591 The foundation for pollinator restoration actions Bach Jonna Løvlund	676054 Bridging biophysical simulation and econo- mic valuation: coupling MAELIA and MODAM to quantify ecosystem service trade-offs in agroecosystems Zander Peter	676218 Integrating Pyrolysis into Agroforestry: A Techno-Economic Perspective for Decision-Support Applications Nahid Hasan Ronnie
	675970 Combining Stakehol- der and Social Network Analyses to identify key interme- diaries shaping agri- cultural landscapes: Insights from the Cap Bon case study, Tunisia Ferchichi Intissar	677474 Typologies of CS-AKIS Workshop Organi- sation: Comparative Reflections from 27 European Countries Csima Gergely	675986 Analysing agroecolo- gical value chains: po- tential and challenges from 7 Living Labs in North Africa Jalkh Rita	675116 Animal and plant genetic research facing the challenge of agro-ecological tran- sitions : the need to redesign knowledge production regimes Coeugnet Philippine	677420 Actors influence on an innovations’ development Selensky Friederike	675211 Mediterranean Operational Resilience Framework for nexus-based ter- ritorial Solutions: the MORFeuS project Hossard Laure	675620 Participatory eco- logical planning of agriculture at territo- rial level: application of the Agent Based MAELIA platform in three contrasting territories in France Seghouani Mounir	674094 Integrated assess- ment and modeling of agroecological biomass and biogas productions scenarios: trade-offs and synergies at the territorial level Josserand Alice

13:30-15:00	677494 Sustainability of family farming in Sudanian Africa. A multi-scalar assessment at landscape and farm level Fusillier Jean-Luis	676341 Iterative design supporting long-term co-innovation for crop-livestock integration in a vineyard region Stark Fabien	675703 How can science support twin transitions? A sociotechnical imaginaries viewpoint Lioutas Evagelos	675898 Optimising Livestock Value Chains in Algeria and Egypt: Economic, Environmental, and Social Implications of Agroecological Practices Adoption Aidana Ermatova	677426 Transforming policy with co-evolving ideas in discourse: the case of EU soil policy Baumler Katharina	676036 Visualizing Interdependencies –Social network analysis as participatory research method for understanding community-supported farm networks Baumgarten Sabine	Pitch	675114 Unveiling Governance Forms of Farmers Markets: Do They Reflect Farmers' Orientations? Tugliani Teresa	677309 From Agricultural Waste to Textile Innovation: A Stakeholder-Based Study on the Potential of Olive Oil Residues in Italy Home Robert
	675423 Systemic capacities for responsible scaling of climate-smart technologies and services Ewell Hanna		675937 Participatory Systemic Modelling for the Agroecological Transition of Cattle Farming Systems at Local Scale in Brittany, France Ruggieri Faustine	674877 Enhancing the resilience of north farming systems through agroecology: a bio-economic modeling approach Bourceret Amélie	677378 Climate change, right to food and management of agricultural risks D'Antonio Carmine		Round - Table	676642 Collective Governance Arrangements for Agrobiodiversity: Relational Innovation and Territorial Collaboration in European Food Systems Rivera Méndez Maria	680085 Bridging Agroecology and Sustainable Food Systems partnerships: A comparative analysis of Strategic Research and Innovation Agendas Galli Francesca
			676048 Agroecological Transition under Constraint: Governance, Power Relations, and Trade-offs in Tunisia Trifa Youssef	Round-Table				674623 Sustainable development and QSE (Quality Security and Environment) synergy: environmental strategies for the food industry El Ghormli Younes	
			675095 To what extent the agroecological transition calls for changes in agricultural advisory services: a systematic literature review Giraud Nicolas J.						
15:00-15:30	Coffee break								

	THEME 1	THEME 2	THEME 3	THEME 4	THEME 1
Sessions convenors	Elisa Marraccini	Yuna Chiffolleau	Ruth Nettle, Patrizia Proietti	Lisa Elena Fuchs	Boelie Elzen
	Landscapes in transition II	New frameworks to document, assess and support agrobiodiversity in action	Capacities building & Development	Special session: Agroecology Living Labs and Landscapes: Learning from North and South experiences about co-creation and the role of research»	Special session: Agroecology Living Labs and Landscapes: Learning from North and South experiences about co-creation and the role of research
	675281 Territorial Diagnosis for Farming Systems Typology and Bio-economy Characterization in the Grand Beauvaisis, Northern France Ismaili Alaoui Amal	677473 Renewing the analysis of Genotype-Environment interactions to promote agrobiodiversity Desclaux Dominique	669144 Teaching and learning transitions in technical agricultural education within multi-stakeholder cooperation systems Peltier Christian	Experiences from two German LLs (FInAL and KOPOS) Busses M. and Roga S.	Experiences from two German LLs (FInAL and KOPOS) Busses M. and Roga S.
15:30-17:00	675868 Agroecological Transition in the Kabili Oasis: Insights from the NATAE Field School Ayadi Sawsen	677138 From Fork to Farm to Save Biodiversity Mattas Konstadinos	675371 Review of Agroecology Curricula and Syllabi in North African and European Mediterranean Contexts: Insights from the NATAE Project Baraket Mokhtar	Co-creation in European LLs taking part in the Agroecology Partnership Task 7.4 Delaney S.	Co-creation in European LLs taking part in the Agroecology Partnership Task 7.4 Delaney S.
	677432 Bridging ecosystem services and land-use inputs: Understanding Mediterranean land-system transformations in the context of renewable energy infrastructures Noll Dominik	677340 Reintroducing traditional pea varieties in Swedish farming and food systems Wallman Dylan	677475 Interdisciplinary approaches to reverse land degradation and restore terrestrial ecosystems: documenting the co-design of an international doctoral course Rizzo Davide	Understanding farmer options, context and preferences leads to the co-design of locally relevant agroecological practices (CGIAR experience with Living labs in Kenya) Fuchs Lisa Elena	Understanding farmer options, context and preferences leads to the co-design of locally relevant agroecological practices (CGIAR experience with Living labs in Kenya) Fuchs Lisa Elena

THEME 4
Maria Rivera Méndez
Inclusive governance and resilience of agri-food value chains
671749 Reflections on transdisciplinary approaches and innovation in thematic networks: a case study of the BroilerNet project Muhammad Mukhtar
675736 Barriers and Drivers of the Transition Towards Ecological Intensification in Latin America: A Multi-Level Perspective Huenchuleo Carlos
675119 Enablers and barriers to participation by Vietnamese vegetable farmers in Participatory Guarantee Systems (PGS) Home Robert

	THEME 1	THEME 2	THEME 3	THEME 4	THEME 1
15:30-17:00	676261 Facilitating landscape transition through a transdisciplinary foresight approach Jiren Tolera	677297 PDO products and sustainability: The case of apples Tsakiridou Efthimia	675520 Modular accompanying pathway and toolbox for fruit and grapevine farmers' collectives to assist in their agroecological transition Alaphillipe Aude	Addressing agrifood systems challenges through Living Labs: Insights from the Global South Cavicchiolli, M	Addressing agrifood systems challenges through Living Labs: Insights from the Global South Cavicchiolli, M
15:30-17:00	675572 From farm redesign to territory-level action and back: technical practices and multi-level determinants of transition Marc Moraine		675503 Developing Capacity for Systemic Change: A Multi-Actor Skills Framework for Responsible Twin Transitions in European Agrifood Systems Pagnani Tiziana	Experiences with Living labs in the Sahel, based on the TAE Sahel and EQUITAE projects Alami S.	Experiences with Living labs in the Sahel, based on the TAE Sahel and EQUITAE projects Alami S.
			675888 Competencies and enabling environment for Innovation Facilitation in R&I projects Lecomte Chloé	Plenary discussion	Plenary discussion
			675938 Capability building processes of extension practitioners towards embodying an innovation systems perspective Koech Elizabeth		
			671844 The trust dimension – beyond competencies? Koutsouris Alex		

THEME 4
675614 Analysis of Stakeholder Perspectives Regarding Novel Packaging Technologies in Mediterranean Seafood Supply Chains: A Comparative Q-methodology Study in Greece, Malta and Tunisia Guzel Kadriye Kardelen
675466 Prefigurative Politics: Exploring The Role Of Municipalities In Transforming The Food System Carlsson Sebastian

THEME 1	THEME 2	THEME 3	THEME 1	THEME 3
Boelie Elzen	Davide Rizzo	Patrizia Proietti and Cees Leeuwis	TBC	Adamsone-Fiskovica
Special session: Scaling of Agri-Food Niches: Towards a Research and Action Agenda II	Community governance of resources	Innovation Scaling	Farms in transition VI: Behaviours, pathways, cultures, adoption factors	Special session: Good practices in setting up successful multi-actor project proposals
	677142 Reading Agricultural systems as Landscapes: A Holistic Approach to Community Development in Lesvos, Greece Pavlis Evangelos	676399 How organizations address the scaling of innovations within their theory of change? insights from Madagascar Rakotondrabearimino Josiane	676191 Scaling Solar Irrigation in Burkina Faso: Diagnosing Adoption Potential and Innovation environment for Small-Scale Farmer-Led innovation Schuler Johannes	
	675761 Assessing Farmers' Adaptation to Climate Change Using a Landscape Approach Kadri Nesrine	676425 Scaling What Matters: A Framework for Aligning Innovation Supply with Demand, Evidence from CGIAR's Scaling Work in Kenya Kihoro Esther	677390 Unraveling the factors affecting the adoption of cover crops. An institutional perspective in southwestern France - Favaro Zoé	
	675750 Mapping risk pathways of French livestock systems to climate change Coré-Brazier Laurine	676504 Enabling Responsible Scaling through Frameworks for Flexible Funding and Technical Support: A Case Study of the CGIAR Scaling Fund Schut Marc	675897 Bridging Systemic and Individual Approaches: Modelling Farmer Behaviour in Sustainability Transitions Pini Filippo	
	677327 From living to organizing together: revealing the role of Social Capital in the effective use and management of forest and pastoral resources in rural areas of Albania Muco Elda	677491 Unpacking 'Demand-Led' Innovation and Scaling: Methods, Priorities, and Trade-offs Mugambi Samuel	669462 Behavioural Pathways to Sustainable Viticulture: Farm-Level Drivers and Policy Implications Latorre-Carrascosa Teresa	
		677470 Bridging scales through systemic analysis to provide and share robust knowledge on dynamics of grassland farming systems with stakeholders Renou Valentine	675745 Farmers' behavioral factors Adam Pirzer
